Wilbros Turf Compost

- Premium quality compost made from yard trimmings, brewers waste, and food waste where temperatures are held above 131°F for over 15 days and turned a minimum of 5 times to meet EPA standards.
- PH adjusted by using Organic Biomass burning boiler ash.
- Nitrogen adjusted by using feather, meat, blood and poultry meal.
- Wilbros Turf Compost is then blended with a river sand mix and is ready for application to turfs.
- Compost consists of approximately 50% compost screened through 3/8" screen and approximately 50% river sand mix.
- Wilbros Turf Compost greatly reduce chemical usage and water requirements.

PRODUCT SPECIFICATIONS

pH	6.0-7.0
C/N ratio	<20
E. C. (mmho/cm)	<3.5
Organic Matter (%)	50-60
Nitrogen (%)	.8-1.25
